

Kiddy Cots Link Playpen Assembly Instructions

STEP 1 - ADDING LINK CONNECTORS TO TIMBER PANELS

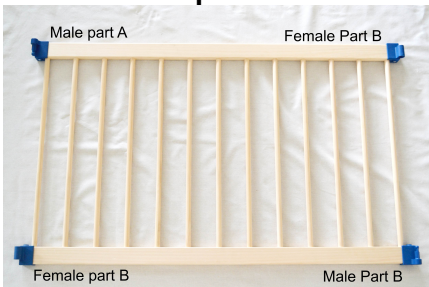

- slide link connector male part (A) onto end of timber panel
- insert and tighten screw in to predrilled hole

- slide link connector female part (B) onto opposite end of timber panel
- insert and tighten screw in to predrilled hole

- repeat on other ends of timber panel
- you should now have 4 link connectors on each timber panel
- see illustration as to how each panel should look when all link connectors are in the correct position

- repeat these steps until ALL panels have link connectors

IMPORTANT: All male and female connectors must be the same on every panel. Every panel must look the same.

STEP 2 - CONNECTING TIMBER PANELS TOGETHER

- connect panels together by lining up both top and bottom male and female parts with the desired angle

- press down firmly to connect
- repeat with all panels choosing the desired angle for each piece

STEP 3 - DISASSEMBLY

- place downward pressure on left panel with your left hand
- pull up on adjoining right panel with your right hand, this releases the connection between the male and female connectors

⚠️ WARNING
